INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Napa County Mosquito Abatement District Napa, California

Report on the Basic Financial Statements

We have audited the accompanying basic financial statements of the governmental activities and the major fund of the Napa County Mosquito Abatement District (the District), as of and for the fiscal year ended June 30, 2020, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether these basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District, as of June 30, 2020, and the respective changes in its financial position for the fiscal year then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3-7, the Budgetary Comparison Schedule on page 29, the Proportionate Share of the Net Pension Liability (Asset) on page 30, the Schedule of Contributions – Pension on page 31, the Schedule of Changes in the Net OPEB Liability (Asset) and Related Ratios on page 32, and the Schedule of Contributions – OPEB on page 33 be presented to supplement the financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2021, on our consideration of the County's internal control over financial reporting relating to the District and on our tests of the County's compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance relating to the District.

This section of Napa County Mosquito Abatement District's (the District) basic financial statements presents management's overview and analysis of the financial activities of the organization for the fiscal year ended June 30, 2020. We encourage the reader to consider the information presented here in conjunction with the basic financial statements as a whole.

Introduction to the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's audited financial statements, which are comprised of the basic financial statements. This annual report is prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for States and Local Governments. The Single Governmental Program for Special Purpose Governments reporting model is used, which best represents the activities of the District.

The required financial statements include the Government-Wide and Fund Financial Statements: Statement of Net Position and Governmental Fund Balance Sheet; Statement of Activities and Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance; and the Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund.

These statements are supported by notes to the basic financial statements. All sections must be considered together to obtain a complete understanding of the financial picture of the District.

The Basic Financial Statements

The Basic Financial Statements comprise the Government-Wide Financial Statements and the Fund Financial Statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

The Government-Wide Financial Statements provide a longer-term view of the District's activities as a whole, and comprise the Statement of Net Position and the Statement of Activities. The Statement of Net Position provides information about the financial position of the District as a whole, including all of its capital assets and long-term liabilities on the full accrual basis of accounting, similar to that used by corporations. The Statement of Activities provides information about all of the District's revenues and all of its expenses, also on the full accrual basis of accounting, with the emphasis on measuring net revenues or expenses of the District's programs. The Statement of Activities explains in detail the change in Net Position for the fiscal year.

All of the District's activities are grouped into Governmental Activities, as explained below.

The Fund Financial Statements report the District's operations in more detail than the Government-Wide Financial Statements and focus primarily on the short-term activities of the District's General Fund and other Major Funds. The Fund Financial Statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

Major Funds account for the major financial activities of the District and are presented individually. Major Funds are explained below.

The Government-Wide Financial Statements

Government-Wide Financial Statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole.

The Statement of Net Position and the Statement of Activities present information about the following:

Governmental Activities

The District's basic services are considered to be governmental activities. These services are supported by general District revenues such as taxes, and by specific program revenues such as benefit assessments and service charges.

Fund Financial Statements

The Fund Financial Statements provide detailed information about each of the District's most significant funds, called Major Funds. The concept of Major Funds, and the determination of which are Major Funds, was established by GASB Statement No. 34 and replaces the concept of combining like funds and presenting them in total. Instead, each Major Fund is presented individually; the District has no Non-Major Funds. Major Funds present the major activities of the District for the fiscal year, and may change from year to year as a result of changes in the pattern of the District's activities.

In the District's case, the General Fund is the only Major Governmental Fund.

Governmental Fund Financial Statements are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses. Capital assets and other long-lived assets, along with long-term liabilities, are not presented in the Governmental Fund Financial Statements.

Comparisons of Budget and Actual financial information are presented for the General Fund.

Analyses of Major Funds

Governmental Funds

General Fund revenues increased overall by \$100,225. Ad valorem property taxes increased \$124,376, and overall taxes and assessments reflected an increase of \$133,033. Actual revenues received for 2019/2020 were \$2,968,831 which was \$509,837 more than budgeted amounts.

General Fund expenditures were \$2,682,180, an increase of \$620,243 from the prior year. Total District expenditures were \$444,965 less than budgeted.

The District continues to closely manage its pension and Other Post-Employment Benefits (OPEB) debt in order to meet its goal of maintaining a minimum funded status of ninety percent. In support of that goal, the District established an IRS 115 trust account with the Public Agency Retirement Services (PARS) to help offset incurred debt when the California Public Employees' Retirement System (CalPERS) pension plan does not meet its net annual investment return target of seven percent. Contributions to this IRS trust totaled \$207,656 for 2019/2020. The District also contributes to the CalPERS CERBT OPEB Trust to help offset incurred debt related to OPEB. Contributions to the CalPERS CERBT OPEB Trust totaled \$196,315 for 2019/2020. Careful vigilance of both the CalPERS pension and OPEB debt as well as future additional contributions to the PARS 115 trust and CERBT trust will be required if the District is to meet its goal of achieving and maintaining a net positive position.

Governmental Activities

Table 1

Governmental Net Position

	Governmental Activities								
		2020 2019			\$ Change	% Change			
Cash and investments	\$	3,395,791	\$	3,201,484	\$	194,307	6%

Total Liabilities		114,346		94,658		19,688	21%		
Deferred inflows of resources		947,068		476,177		470,891	99%		
Net Position									
Net investment in capital assets		1,521,156		1,674,758		(153,602)	-9%		
Restricted for OPEB and pensions		3,765,454		1,446,103		2,319,351	160%		
Unrestricted		3,876,614		4,804,192		(927,578)	-19%		
Total Net Position	\$	9,163,224	\$	7,925,053	\$	1,238,171	16%		

The District's governmental net position amounted to \$9,163,224 as of June 30, 2020, an increase of \$1,238,171 from 2019. This increase is the Change in Net Position reflected in the Governmental Activities column of the Statement of Activities shown in Table 2. The District's net position as of June 30, 2020, comprised the following:

- Cash and investments of \$3,395,791. Substantially all of these amounts were held in short-term investments in government securities, as detailed in Note 5 of the basic financial statements.
- Net OPEB asset and net pension asset of \$1,848,589 and \$794,809, respectively. The details of these plans can be found in Notes 10 and 8, respectively.
- Accounts receivable of \$158,273.
- Inventory (pesticide storage) of \$200,742.
- Investments held in PARS 115 Pension and OPEB Trusts of \$997,056 and \$125,000, respectively.

- Capital assets of \$1,521,156 net of depreciation charges, which includes all the District's capital
 assets used in governmental activities.
- Current liabilities, including accounts payable, claims, and other current amounts due, totaling \$84,396. Noncurrent liabilities include compensated absences of \$29,950.
- Net investment in capital assets of \$1,521,156, representing the District's investment in capital assets used in governmental activities, net of amounts borrowed to finance that investment.
- Restricted net position of \$3,765,454 This amount consists of amounts restricted for pension payments and retiree health premiums in the California Employee Retiree Benefit Trust with CalPERS and the investment held in PARS 115 Pension Trust.
- Unrestricted net position of \$3,876,614 represents all remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

The Statement of Activities presents program revenues and expenses and general revenues in detail. All of these are elements in the Changes in Governmental Net Position summarized below.

Table 2

<u>Changes in Governmental Net Position</u>

	Governmental Activities								
	2020	2019	% Change						
Expenses Public health	\$ 1,746,384	\$ 1,969,051	\$ (222,667)	-11%					
Total Expenses	1,746,384	1,969,051	(222,667)	-11%					
Revenues Program revenues: Charges for services	38,009	35,929	2,080	6%					
Total program revenues	38,009	35,929	2,080	6%					
General revenues: Taxes and assessments Interest Other	2,785,024 138,732 22,790	2,651,991 147,072 43,902	133,033 (8,340) (21,112)	5% -6% -48%					
Total general revenues	2,946,546	2,842,965	103,581	4%					
Total Revenues	2,984,555	2,878,894	105,661	4%					
Change in Net Position	\$ 1,238,171	\$ 909,843	\$ 328,328	36%					

As Table 2 above shows, \$38,009, or 1%, of the District's fiscal year 2020 governmental revenue came from program revenues and \$2,946,546, or 99%, came from general revenues primarily from taxes and assessments. Expenses of \$1,746,384 consists of Public Health services and depreciation.

General revenues are not allocable to programs. General revenues are used to pay for the net cost of governmental programs.

Capital Assets: Detail on capital assets, and current year additions and deletions, can be found in Note 6.

<u>Debt Administration</u>: The District currently does not utilize long-term debt to fund operations or growth.

<u>Pension</u>: The District achieved a positive net position in its pension debt obligation in the current year. Due to the small size of the District (fewer than 10 employees), the District participates in a multiple-employer risk pool – the CalPERS Miscellaneous Cost-Sharing Multiple-Employer Defined Benefit Pension Plan. GASB Statement No. 68 accounting valuation report (measurement date June 30, 2019) indicates the District's proportionate share of the risk pool collective net position and liability (asset) as follows:

	Increase (Decrease)							
		District Net						
	District Total	Fiduciary Net	Pension Liability/(Asset)					
	Pension Liability (a)	•						
Balance at June 30, 2018 (Valuation Date)	\$ 7,533,695	\$ 7,773,931	\$ (240,236)					
Balance at June 30, 2019 (Measurement Date)	7,731,403	8,526,212	(794,809)					
Net Changes During 2018-2019	\$ 197,708	\$ 752,281	\$ (554,573)					

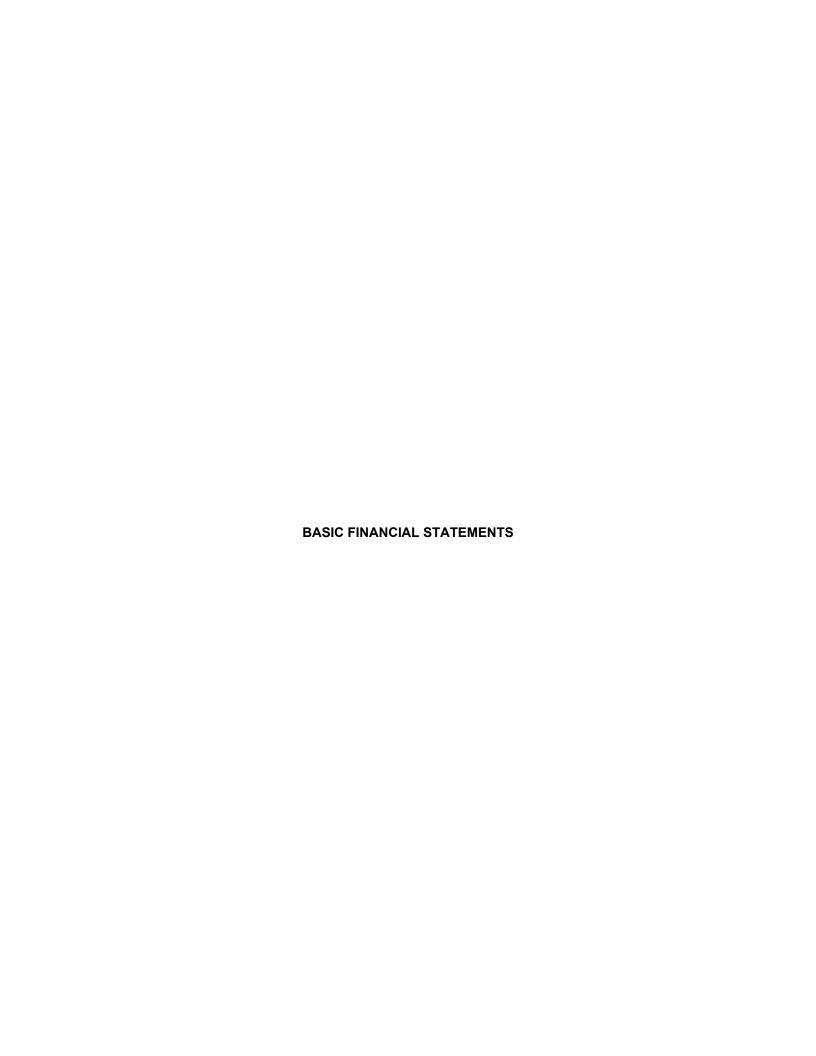

The District will continue its conservative approach as well as prefunding OPEB liabilities by contributing at least 100% of the annual required contribution each year. Similar to the unfunded pension liability, the District will continue to closely monitor its OPEB liability as well as make additional contributions in future years, as needed, in an effort to achieve and maintain its goal of fully funded status.

<u>Economic Outlook and Major Initiatives</u>: The District's financial position continues to be adequate. Financial planning is based on specific assumptions from recent trends in real property values, new residential development, State of California economic forecasts, and historical growth patterns in the various communities served by the District.

The economic condition of the District as it appears on the balance sheet reflects financial stability and the potential for organizational growth. The District will continue to maintain a watchful eye over expenditures and remain committed to sound fiscal management practices to deliver the highest quality service to the citizens of the area.

Contacting the District's Financial Management

This annual financial report is intended to provide citizens, taxpayers, and creditors with a general overview of the District's finances. Questions about this report should be directed to Napa County Mosquito Abatement District, P.O. Box 10053, American Canyon, CA 94503.

NOTE 1 – GENERAL

Napa County Mosquito Abatement District (the District) was established in 1925 as a special district of the State of California formed and operated pursuant to Health and Safety Code Section 2000 et. seq., for the purpose of controlling mosquitoes, flies, or other disease-carrying organisms in Napa County. Controls include the direct treatment or reduction of habitat such as standing water, swamp land, marshes, or excess growth of weeds within the territory of the District and areas with a proximity that such vectors may disperse from there into the territory.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The District's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the U.S.A.

The District has chosen to present its basic financial statements using the reporting model for special purpose governments engaged in a single government program.

This model allows the fund financial statements and the government-wide financial statements to be combined using a columnar format that reconciles individual line items of fund financial data to government-wide financial data in a separate column on the face of the financial statements rather than at the bottom of the statements or in an accompanying schedule.

Government-Wide Financial Statements

The statement of net position and the statement of activities include the financial activities of the overall District government.

The District's basic financial statements reflect only its own activities; it has no component units (other government units overseen by the District). The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, a benefit assessment, intergovernmental revenues, and other non-exchange revenues.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operation or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for the governmental fund are presented. The emphasis of fund financial statements is on major individual funds, each of which is displayed in a separate column.

NOTE 2 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

B. Major Funds

GASB Statement No. 34 defines major funds and requires that the District's major governmental type funds be identified and presented separately in the fund financial statements. Major funds are defined as funds that have assets, liabilities, revenues, or expenditures equal to ten percent of their fund-type total and five percent of the grand total.

The District reported the following major governmental fund in the accompanying financial statements:

General Fund – The General Fund is the main operating fund of the District. This fund is used to account for financial resources not accounted for in other funds.

C. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the times liabilities are incurred, regardless of when the related cash flow takes place.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the fiscal year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. The District's policy is to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

D. Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Formal budgetary integration is employed as a management control device.

E. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

F. Property Taxes

The District receives property taxes from the County of Napa (the County), which has been assigned the responsibility for assessment, collection, and apportionment of property taxes for all taxing jurisdictions within the County. Secured property taxes are levied on July 1 for the following fiscal year and on which date it becomes a lien on real property. Secured property taxes are due in two installments on November 1 and February 1 and are delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the July 1 lien date and become delinquent if unpaid by August 31.

The District participates in the County's "Teeter Plan" method of ad valorem property tax distribution and thus receives 100% of the District's apportionment each fiscal year, eliminating the need for an allowance for uncollectible taxes. The County, in return, receives all penalties and interest on the related delinquent taxes. Under the Teeter Plan, the County remits property taxes to the District based on assessments, not on collections, according to the following schedule: 55 percent in December, 40 percent in April, and 5 percent at the end of the fiscal year. Property tax is recognized when it is available and measurable. The District considers property tax as available if it is received within 60 days after fiscal year-end. The Teeter Plan does not apply to the District's voter approved benefit assessment.

G. Benefit Assessment Revenue

The District receives approximately 41.2% of its funding from a 2003 voter approved benefit assessment (this excludes interest received and sale of any equipment). These revenues are also collected by the County and as noted, the Teeter Plan does not apply. The receipt of these revenues is similar to receipt of property taxes.

H. Other Revenues

Other revenues include, but are not limited to, sales of equipment/vehicles, rebate checks, and insurance refunds.

I. Capital Assets

Purchased capital assets are stated at historical cost or estimated historical cost when original cost is not available. Donated capital assets are recorded at their estimated fair value at the date of donation. The District's policy is to capitalize all capital assets with costs exceeding a minimum threshold of \$5,000. Depreciation is recorded using the straight-line method over the estimated useful lives of the capital assets, which range from 15 to 20 years for field equipment, 5 to 10 years for office equipment, 8 to 10 years for vehicles, and 20 to 30 years for buildings.

J. Encumbrances

Encumbrance accounting is used during the fiscal year for budgetary control. Encumbrances outstanding at the fiscal year-end do not constitute expenditures or liabilities, but rather, a reservation of fund balance. The District honors contracts represented by fiscal year-end encumbrances and the appropriations carried over provide authority to complete these transactions in the following fiscal year. The District did not have any reserve for encumbrances at June 30, 2020.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Inventory

Inventory represents various pesticide materials that have been stated at cost determined by the first-in, first-out method. The costs of inventory are recorded as expenses when consumed rather than when purchased.

L. Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, the District recognizes deferred outflows and inflows of resources.

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the District that is applicable to a future reporting period.

M. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The District established an IRS 115 trust account with the Public Agency Retirement Services (PARS) to help offset those years when CalPERS pension does not meet its annual net investment target return thus minimizing incurred pension debt.

N. Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined using the flow of economic resources measurement focus and full accrual basis of accounting. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Net Position and Fund Balance

Government-Wide Financial Statements:

<u>Net Investment in Capital Assets</u> – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that contributed to the acquisition, construction, or improvement of the capital assets.

<u>Restricted Net Position</u> – This amount consists of amounts restricted by external creditors, grantors, contributors, or laws or regulations of other governments.

NOTE 2 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

O. Net Position and Fund Balance (Continued)

Government-Wide Financial Statements: (Continued)

<u>Unrestricted Net Position</u> – This amount is all remaining net position that does not meet the definition of "net investment in capital assets or "restricted net position."

Fund Financial Statements:

Restricted Fund Balance – Amounts with constraints placed on the use of resources that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

<u>Committed Fund Balance</u> – Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (Board of Directors) and which remain in place unless removed by taking the same type of action it employed to commit those amounts. The formal action that commits fund balance to a specific purpose must occur prior to the end of the reporting period.

<u>Assigned Fund Balance</u> – Amounts intended to be used by the District for specific purposes but that do not meet the criteria to be classified as restricted or committed.

<u>Unassigned Fund Balance</u> – The residual classification for the District's General Fund that includes all amounts not contained in other classifications.

NOTE 3 - RECONCILIATION OF THE GOVERNMENTAL FUND BALANCE SHEET WITH THE STATEMENT OF NET POSITION

Reconciling adjustments are as follows:

Capital assets used in governmental activities are not current assets or financial resources and, therefore, are not reported in the governmental fund.	\$ 1,521,156
Cash with fiscal agent relates to PARS 115 Pension and OPEB Trust	1,122,056
Compensated absences	(50,725)
Deferred inflows of resources related to OPEB	(744,862)
Deferred inflows of resources related to pensions	(202,206)
Deferred outflows of resources related to OPEB	477,743
Deferred outflows of resources related to pensions	705,479
Net OPEB asset	1,848,589
Net pension asset	794,809
Total fund balance - governmental fund	3,691,185
Net position of governmental activities	\$ 9,163,224

NOTE 4 - RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE WITH THE STATEMENT OF ACTIVITIES

Reconciling adjustments are as follows:

Net change in fund balance - total governmental fund	\$ 286,651
Depreciation expense is deducted from fund balance.	(153,602)

The amounts below included in the statement of activities do not provide (require) the use of current financial resources and, therefore, are not reported as revenues or

expenditures in the governmental fund (net change).

Change in net position of governmental activities	<u> </u>	1,238,171
Change in net pension asset		747,698
Change in net OPEB asset		359,799
Interest earned on PARS 115 Pension Trust		15,724
Change in compensated absences		(18,099)

NOTE 5 - CASH AND INVESTMENTS

Cash and investments at June 30, 2020, consisted of the following:

Pooled cash at the County	\$ 2,064,016
Met-Life common stock	1,550
PARS 115 Pension Trust	997,056
PARS 115 OPEB Trust	125,000
Deposit - Vector Control Joint Powers Agency (VCJPA)	1,330,225
	_
	\$ 4,517,847

Authorized Investments

Under provision of the District's Investment Policy, and in accordance with Section 53601 of the California Government Code, the District may invest in the following types of investments: the County cash and investment pool, negotiable certificates of deposit, VCJPA investment pool, Public Agency Retirement Services (PARS) Pool, California Employers' Retiree Benefit Trust (CERBT), and Local Agency Investment Fund (State Pool) Deposits.

NOTE 5 – CASH AND INVESTMENTS (Continued)

Fair Value Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs - other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The District maintains specific cash deposits with the County and voluntarily participates in the external investment pool of the County. The County is restricted by state code in the types of investments it can make. The District's balance at June 30, 2020, was \$2,064,016. Furthermore, the County Treasurer has a written investment policy, approved by the Board of Supervisors, which is more restrictive than the state code as to terms of maturity and type of investment. Also, the County has an investment committee, which performs regulatory oversight for its pool as required by California Government Code Section 27134.

The County's investment policy authorizes the County to invest in obligations of the U.S. Treasury, its agencies and instrumentalities, certificates of deposit, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, bankers' acceptances, repurchase agreements, and the State Treasurer's investment pool. At June 30, 2020, the District's cash with the County Treasurer is stated at fair value. However, the value of the pool shares in the County that may be withdrawn is determined on an amortized cost basis, which is different than the fair value of the District's position in the pool.

The District maintains specific cash deposits with the VCJPA (see related Note 9). The balance at June 30, 2020, was \$1,330,225.

NOTE 5 – CASH AND INVESTMENTS (Continued)

Fair Value Hierarchy (Continued)

The following is a summary of the fair value hierarchy of the fair value of investments of the District as of June 30, 2020:

	Total	L	₋evel 1	Level 2	L	evel 3
Investment Type	,					
VCJPA	\$ 1,330,225	\$	-	\$ 1,330,225	\$	-
PARS 115 Pension Trust	997,056		-	997,056		-
PARS 115 OPEB Trust	125,000		-	125,000		-
Met-Life common stock	 1,550		1,550	 		
Total Investments	2,453,831	\$	1,550	\$ 2,452,281	\$	
Investments measured at amortized cost:						
County Treasurer's Investment Pool	\$ 2,064,016					
Total Investments	\$ 4,517,847					

Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The VCJPA and the PARS 115 Pension Trust, classified in Level 2 of the fair value hierarchy, is valued using quoted prices for a non-active market portfolio at fiscal year-end. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the custodian bank.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The actual ratings as of June 30, 2020, are provided by Standard and Poor's Corporation except as noted.

		Total
Investment Type		
Not rated:		
VCJPA	\$	1,330,225
County Treasurer's Investment Pool		2,064,016
PARS 115 Pension Trust		997,056
PARS 115 OPEB Trust		125,000
Met-Life common stock		1,550
	_	
Total Investments	<u>\$</u>	4,517,847

NOTE 6 - CAPITAL ASSETS

Capital assets activity for the fiscal year ended June 30, 2020, was as follows:

	Balance July 1, 2019	Additions	Deletions	Balance June 30, 2020
Capital assets, not depreciated Land	\$ 142,128	\$ -	\$ -	\$ 142,128
Total capital assets, not depreciated	142,128			142,128
Capital assets, being depreciated Buildings Vehicles Equipment	2,508,981 625,260 390,732	- - -	(125,213) 	2,508,981 500,047 390,732
Total capital assets, being depreciated	3,524,973		(125,213)	3,399,760
Less: accumulated depreciation	(1,992,343)	(153,602)	125,213	(2,020,732)
Total capital assets, being depreciated, net	1,532,630	(153,602)		1,379,028
Capital assets, net	\$ 1,674,758	\$ (153,602)	\$ -	\$ 1,521,156

Depreciation expense for the fiscal year ended June 30, 2020, was \$153,602.

NOTE 7 – LONG-TERM DEBT

A. Summary of Changes in Long-Term Debt

The following represents changes in long-term debt during the fiscal year:

	_	alance y 1, 2019	A	dditions	Re	eductions	_	Balance e 30, 2020	 ie Within ne Year
Compensated absences	\$	32,626	\$	51,776	\$	(33,677)	\$	50,725	\$ 29,950
Total	\$	32,626	\$	51,776	\$	(33,677)	\$	50,725	\$ 29,950

B. Compensated Absences

Compensated absences consist of accrued vacation at June 30, 2020. The District's full-time employees accrue between 3.08 and 4.7 vacation hours every two weeks; additional hours are accrued due to anniversary date tiers. The District's part-time employees' accrual is pro-rated based on the number of hours worked.

NOTE 8 – DEFINED BENEFIT PENSION PLANS

A. General Information about the Pension Plans

Plan Descriptions – All qualified employees are eligible to participate in the District's separate Miscellaneous Employee Pension Plans, cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 (Classic) and age 57 (PEPRA) with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2020, are summarized as follows:

Hire date	Prior to January 3, 2013	On or after January 3, 2013
Benefit formula	2.7% at 55	2.0% at 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50-55	57-67
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%
Required employee contribution rates	8%	6.5%
Required employer contribution rates	12.429%	6.93%

The District's Plans are part of the public agency cost-sharing multiple-employer defined benefit pension plan (PERF C), which is administered by CalPERS. PERF C consists of a miscellaneous pool and a safety pool (also referred to as "risk pools"), which are comprised of individual employer miscellaneous and safety rate plans, respectively. Individual employers may sponsor more than one miscellaneous and safety rate plan. The employer participates in one cost-sharing multiple-employer defined benefit pension plan regardless of the number of rate plans the employer sponsors. The District sponsors two miscellaneous rate plans.

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

NOTE 8 – <u>DEFINED BENEFIT PENSION PLANS</u> (Continued)

A. General Information about the Pension Plans (Continued)

For the fiscal year ended June 30, 2020, the contributions recognized as part of pension expense for each Plan were as follows:

	Mis	cellaneous
Contributions omployer	¢	767.497
Contributions - employer	Ф	767,497

B. Pension Asset, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2020, the District reported a net pension asset for its proportionate share of the net pension asset of the Plans as follows:

	Proportionate Share of the
	Net Pension
	Asset
Miscellaneous	\$ 794,809

The District's net pension asset for the Plans is measured as the proportionate share of the net pension asset. The net pension asset of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2019, using standard update procedures. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension asset for the Plans as of June 30, 2017 and 2018, was as follows:

	Miscellaneous
Proportion - June 30, 2018	-0.006%
Proportion - June 30, 2019	-0.020%
Change - Increase (Decrease)	-0.014%

NOTE 8 – <u>DEFINED BENEFIT PENSION PLANS</u> (Continued)

B. <u>Pension Asset, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions</u> (Continued)

For the fiscal year ended June 30, 2020, the District recognized pension expense of \$87,252. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		- Ir	Deferred Inflows of Resources	
Pension contributions subsequent to measurement date	\$	207,656	\$	-	
Differences between actual and expected experience		4,640		55,565	
Changes in assumptions		13,750		38,212	
Net differences between projected and actual earnings					
on plan investments		13,899		-	
Differences in Proportions		8,148		80,315	
Change in employer's proportion and differences between					
the employer's contributions and the employer's					
proportionate share of contributions		457,386		28,114	
	\$	705,479	\$	202,206	

\$207,656 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30	
2021	\$ 81,236
2022 2023	154,478 62,710
2024	(2,807)
2025	-
Thereafter	
	\$ 295,617

NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)

B. <u>Pension Asset, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions</u> (Continued)

Actuarial Assumptions – For the measurement period ended June 30, 2019, the total pension liability was determined by rolling forward the June 30, 2017 total pension liability. The June 30, 2019 total pension liability was based on the following actuarial methods and assumptions:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Actuarial Cost Method Entry-Age Normal Cost Method

Actuarial Assumptions

Discount Rate 7.15%
Inflation 2.625%
Payroll Growth 2.875%

Projected Salary Increase Varies by Entry Age and Service

Investment Rate of Return 7.25% (1)

Mortality Derived using CalPERS Membership Data for all Funds (2)

Discount Rate – The discount rate used to measure the total pension liability was 7.15% for each plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle. Any changes to the discount rate will require CalPERS Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB Statements No. 67 and No. 68 calculations through at least the 2018-2019 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as they have changed their methodology.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

⁽¹⁾ Net of pension plan investment expenses, including inflation

⁽²⁾ The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the CalPERS 2017 experience study report available on the CalPERS website.

NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)

B. <u>Pension Asset, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions</u> (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long term (11-60 years) using a building block approach.

Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1-10	Real Return Years 11+
Global Equity	50%	4.80%	5.98%
Global Fixed Income	28%	1.00%	2.62%
Inflation Sensitive	0%	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Estate	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
Total	100%		

Sensitivity of the Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability (asset) for the Plans, calculated using the discount rate for the Plans, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Mi	scellaneous
1% Decrease Net Pension Liability (Asset)	\$	6.15% 245,088
Current Discount Rate Net Pension Liability (Asset)	\$	7.15% (794,809)
1% Increase Net Pension Liability (Asset)	\$	8.15% (1,653,171)

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTE 9 - INSURANCE

The District participates with other public entities in a joint venture under a joint powers agreement that established the VCJPA. The VCJPA is a consortium of 35 mosquito abatement or vector control districts in the State of California. It was established under the provisions of California Government Code Section 6500 et. seq. The day-to-day business is handled by a risk management group employed by VCJPA.

The District is covered for the first \$1,000,000 of each general liability claim and \$350,000 of each workers' compensation claim through VCJPA. The District has the right to receive dividends and the obligation to pay assessments based on a formula which, among other expenses, charges the District's account for liability losses under \$10,000 and workers' compensation losses under \$25,000. The VCJPA participates in an excess pool that provides general liability coverage from \$1,000,000 to \$9,000,000. The VCJPA participates in an excess pool that provides workers' compensation coverage from \$1,000,000 to \$25,000,000. The District is covered for property damage from \$5,000 to \$500,000,000 and auto damage up to \$30,000 per accident, business travel up to \$150,000 and environmental damage from \$5,000 to \$1,000,000.

Cash deposits of \$1,330,225 with the VCJPA are maintained to help offset costs of unexpected potential claims including required deductible contributions. The deposits with the VCJPA also cover the 15% deductible for earthquake insurance that the District has as a separate policy outside of the VCJPA.

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN RETIREMENT (OPEB)

Plan Description

The District's defined benefit post-employment healthcare plan, the District Other Post-Employment Benefit Program, provides medical benefits to eligible retired District employees and their beneficiaries. Napa County Mosquito Abatement District Other Post-Employment Benefit Program is affiliated with the CERBT, an agent multiple-employer post-employment healthcare plan administered by CalPERS. CalPERS issues a publicly available financial report that includes financial statements and required supplementary information for CERBT. That report may be obtained by writing to the Executive Office, 400 P Street, Sacramento, CA 95814.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the CERBT Board of Trustees. The District Other Post-Employment Benefit Program members receiving benefits contribute \$0 per month for retiree-only coverage and \$0 per month for retiree and spouse coverage to age 65, and \$0 and \$0 per month, respectively, thereafter.

The District passed resolutions to participate in the CERBT, an irrevocable trust established to fund OPEB. CERBT is administrated by CalPERS, and is managed by an appointed board not under the control of the District's Board of Directors. This trust is not considered a component unit by the District and has been excluded from these financial statements. Separately issued financial statements for CERBT may be obtained from CalPERS at P.O. Box 942709, Sacramento, CA 94229-2709.

NOTE 10 – POST-EMPLOYMENT BENEFITS OTHER THAN RETIREMENT (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Liability/(Asset)

Employees Covered by Benefit Terms

At June 30, 2020, the benefit terms covered the following employees:

Inactive employees or beneficiaries currently receiving benefit payments

5

Inactive employees entitled to but not yet receiving benefit payments

Active plan members 9

Contributions

The District establishes rates based on an actuarially determined rate.

For the fiscal year ended June 30, 2020, the District's expected contribution rate is 67.11% of covered payroll. The District currently pays the monthly premium.

Net OPEB Asset

The District's net OPEB asset was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of July 1, 2018.

Actuarial Assumptions

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation: 2.75%

Salary increases: Aggregate salary increases of 3.25%.

Investment rate of return: 5.00%

Healthcare cost trend rates: 6.00% in the first year, trending down to 5.00% over 3 years. Mortality rates were based on MacLeod Watts Scale 2017 applied generationally.

Actuarial cost method: Entry Age Normal

Amortization method and period: Level dollar; 9.0 years

Asset value method: Market Value

Inflation: 2.75%

NOTE 10 – POST-EMPLOYMENT BENEFITS OTHER THAN RETIREMENT (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Liability/(Asset) (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of the arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	40.00%	4.80%

Discount Rate

The discount rate used to measure the total OPEB liability was 5.00%. The projection of cash flows used to determine the discount rate assumed that the District contribution will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to cover all future OPEB payments. Therefore, the discount rate was set equal to the long-term expected rate of return.

Changes in the Net OPEB Liability (Asset)

Measurement Date June 30, 2019	\$ (851,829)
Changes during the period:	
Service cost	120,992
Interest	130,416
Differences between expected and actual experience	(607,789)
Changes in assumptions	137,902
Contributions - employer	(540,959)
Net investment income	(236,596)
Administrative expenses	 (726)
Net Change in Fiscal Year 2019-2020	(996,760)
Net OPEB Liability (Asset) at June 30, 2020	\$ (1,848,589)

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN RETIREMENT (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Liability/(Asset) (Continued)

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate

The net OPEB asset of the District, as well as what the District's net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (4.00%) or one percentage point higher (6.00%) follows:

Plan's Net OPEB Liability/(Asset)									
	1% Decrease 3.50%	Curi	rent Discount Rate 4.50%	1% Increase 5.50%					
\$	(1,542,256)	\$	(1,848,589)	\$	(2,098,249)				

Sensitivity of the net OPEB asset to changes in the healthcare cost trend rates. The net OPEB asset of the District, as well as what the District's net OPEB asset would be if it were calculated using healthcare cost trend rates that are one percentage point lower (-1.00%) or one percentage point higher (1.00%) than current healthcare cost trend rates follows:

Plan's Net OPEB Liability/(Asset)									
1% Decrease			Trend Rate	1% Increase					
\$	(2,123,278)	\$	(1,848,589)	\$	(1,510,291)				

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

For the fiscal year ended June 30, 2020, the District recognized an OPEB expense of \$(38,484). At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Oı	Deferred utflows of esources	Deferred Inflows of Resources			
Changes of assumptions Differences between actual and expected experience Net differences between projected and actual earnings on	\$	281,428	\$	- 663,833		
investments		-		81,029		
Contributions made subsequent to the measurement date		196,315				
	\$	477,743	\$	744,862		

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN RETIREMENT (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Liability/(Asset) (Continued)

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB (Continued)

The District will recognize the contributions made subsequent to the measurement date in the next fiscal year. In addition, future recognition of these deferred resources is shown below.

Year Ended June 30	
2021	\$ (108,666)
2022	(108,664)
2023	(100,633)
2024	(95,129)
2025	(50,342)
Thereafter	 -
	\$ (463,434)

NOTE 11 - SUBSEQUENT EVENTS

Subsequent events have been evaluated through January 13, 2021, which is the date the basic financial statements were available to be issued.

On March 11, 2020, the World Health Organization declared the outbreak of a coronavirus (COVID-19) pandemic. In response, the County, followed by the Governor of California, issued a Shelter at Home order effective March 19, 2020, requiring certain non-essential businesses to temporarily close to the public. At the current time, management is unable to quantify the potential effects of this pandemic on its future financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Napa County Mosquito Abatement District Napa, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, basic financial statements of the governmental activities and the major fund of the Napa County Mosquito Abatement District (the District), as of and for the fiscal year ended June 30, 2020, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 13, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) relating to the Authority as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control relating to the District. Accordingly, we do not express an opinion on the effectiveness of the County's internal control relating to the District.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of the County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance relating to the Authority. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance relating to the Authority. Accordingly, this report is not suitable for any other purpose.
