To the Board of Directors  
Napa County Mosquito Abatement District  
American Canyon, California

In planning and performing our audit of the basic financial statements of Napa County Mosquito Abatement District for the fiscal year ended June 30, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered its internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of its internal control. Accordingly, we do not express an opinion on the effectiveness of Napa County Mosquito Abatement District's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses, as defined above. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the management of Napa County Mosquito Abatement District and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

We thank Napa County Mosquito Abatement District's staff for its cooperation during our audit.

To the Board of Directors  
Napa County Mosquito Abatement District  
American Canyon, California

We have audited the basic financial statements of Napa County Mosquito Abatement District for the year ended June 30, 2017. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 13, 2017, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the basic financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting principles. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

As part of our audit, we considered the internal control of Napa County Mosquito Abatement District. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

**Qualitative Aspects of Accounting Practices**

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Napa County Mosquito Abatement District are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by Napa County Mosquito Abatement District during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We evaluated the key factors and assumptions used to develop the accounting estimates in determining that it is reasonable in relation to the financial statements taken as a whole. The most sensitive estimate(s) affecting the financial statements were:

- Accrual and disclosure of compensated absences;
- Capital asset lives and depreciation expense;
- Actuarial calculations for pension plans and post employment benefits;
- Fair value of investments and financial instruments.

**Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

**Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. Of the misstatements detected as a result of audit procedures and corrected by management most were material, either individually or in the aggregate, to the financial statements taken as a whole.

**Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors’ report. We are pleased to report that no such disagreements arose during the course of our audit.

**Management Representations**

We have requested certain representations from management that are included in the management representation letter.

**Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to Napa County Mosquito Abatement District’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

**Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Napa County Mosquito Abatement District’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**Other Matters**

We applied certain limited procedures to the Management’s Discussion and Analysis and the Budgetary Comparison Schedule for the General Fund, which is required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

This report is intended solely for the information and use of management and Board of Directors of Napa County Mosquito Abatement District and is not intended to be, and should not be, used by anyone other than these specified parties.

Napa County Mosquito Abatement District  
MANAGEMENT REPORT  
June 30, 2017

**Current Year Observations**

There were no observations that came to our attention.

**Prior Year Observations**

1) Accrued Salaries and Benefits Account

Observation:

QuickBooks account #3400 Accrued benefits does not reconcile with the Napa County account #22100 Accrued Salaries and Benefits.

Recommendation:

We recommended Napa County Mosquito Abatement District's (the District's) accountant reconcile these two accounts and investigate any differences.

Status:

The account is an accumulation of differences between the District's and Napa County payroll transactions. The District's payroll is commingled with the County payroll and the differences are difficult to identify and reconcile. The District's accountant reviews and records these transactions periodically.
